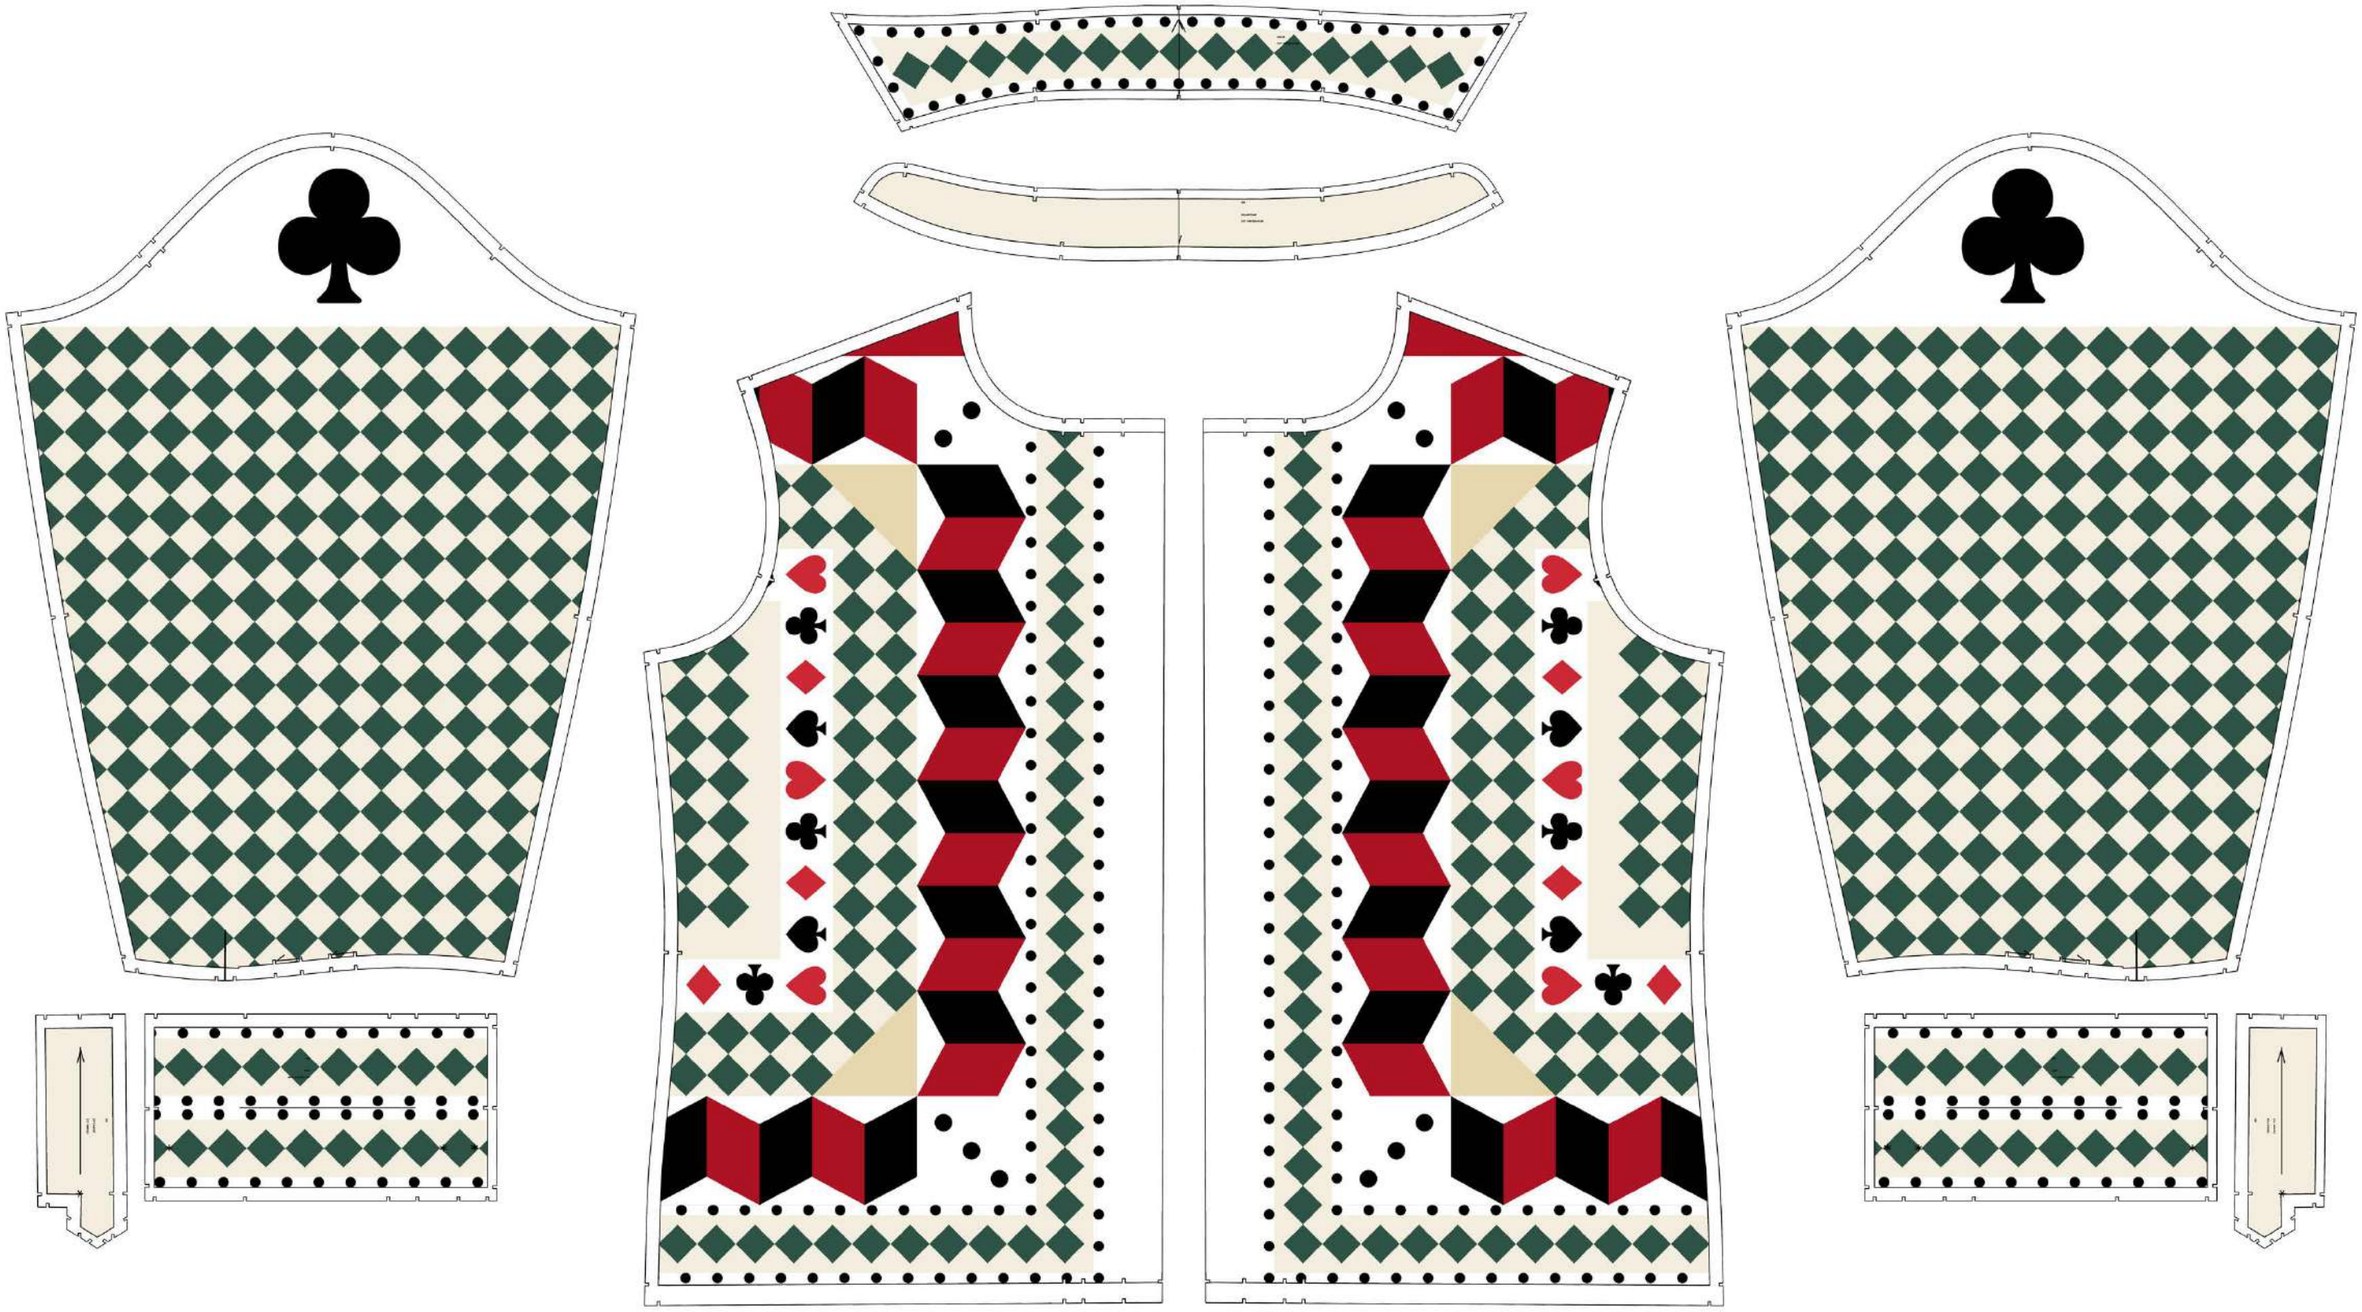
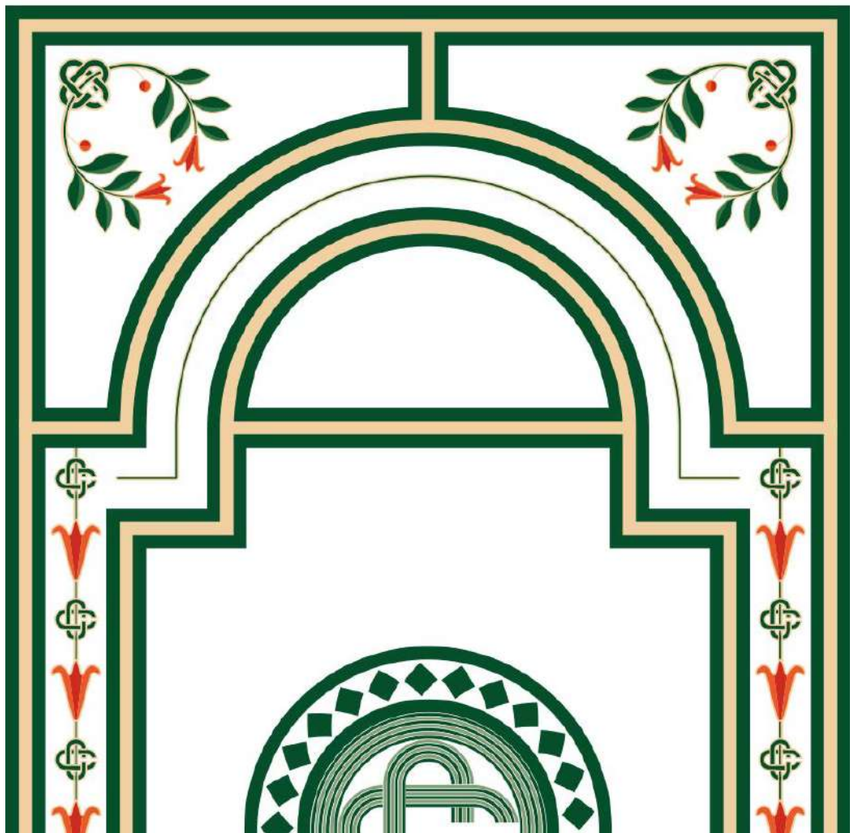
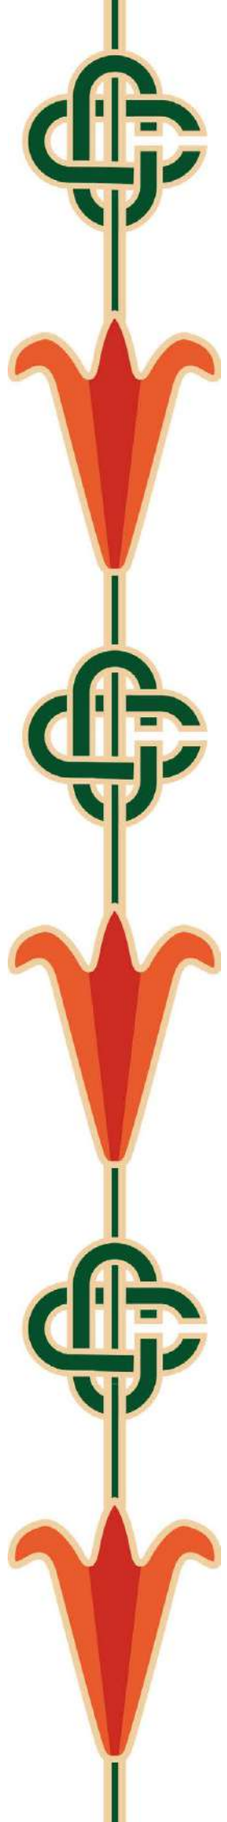
GAMEBOARD PRINT

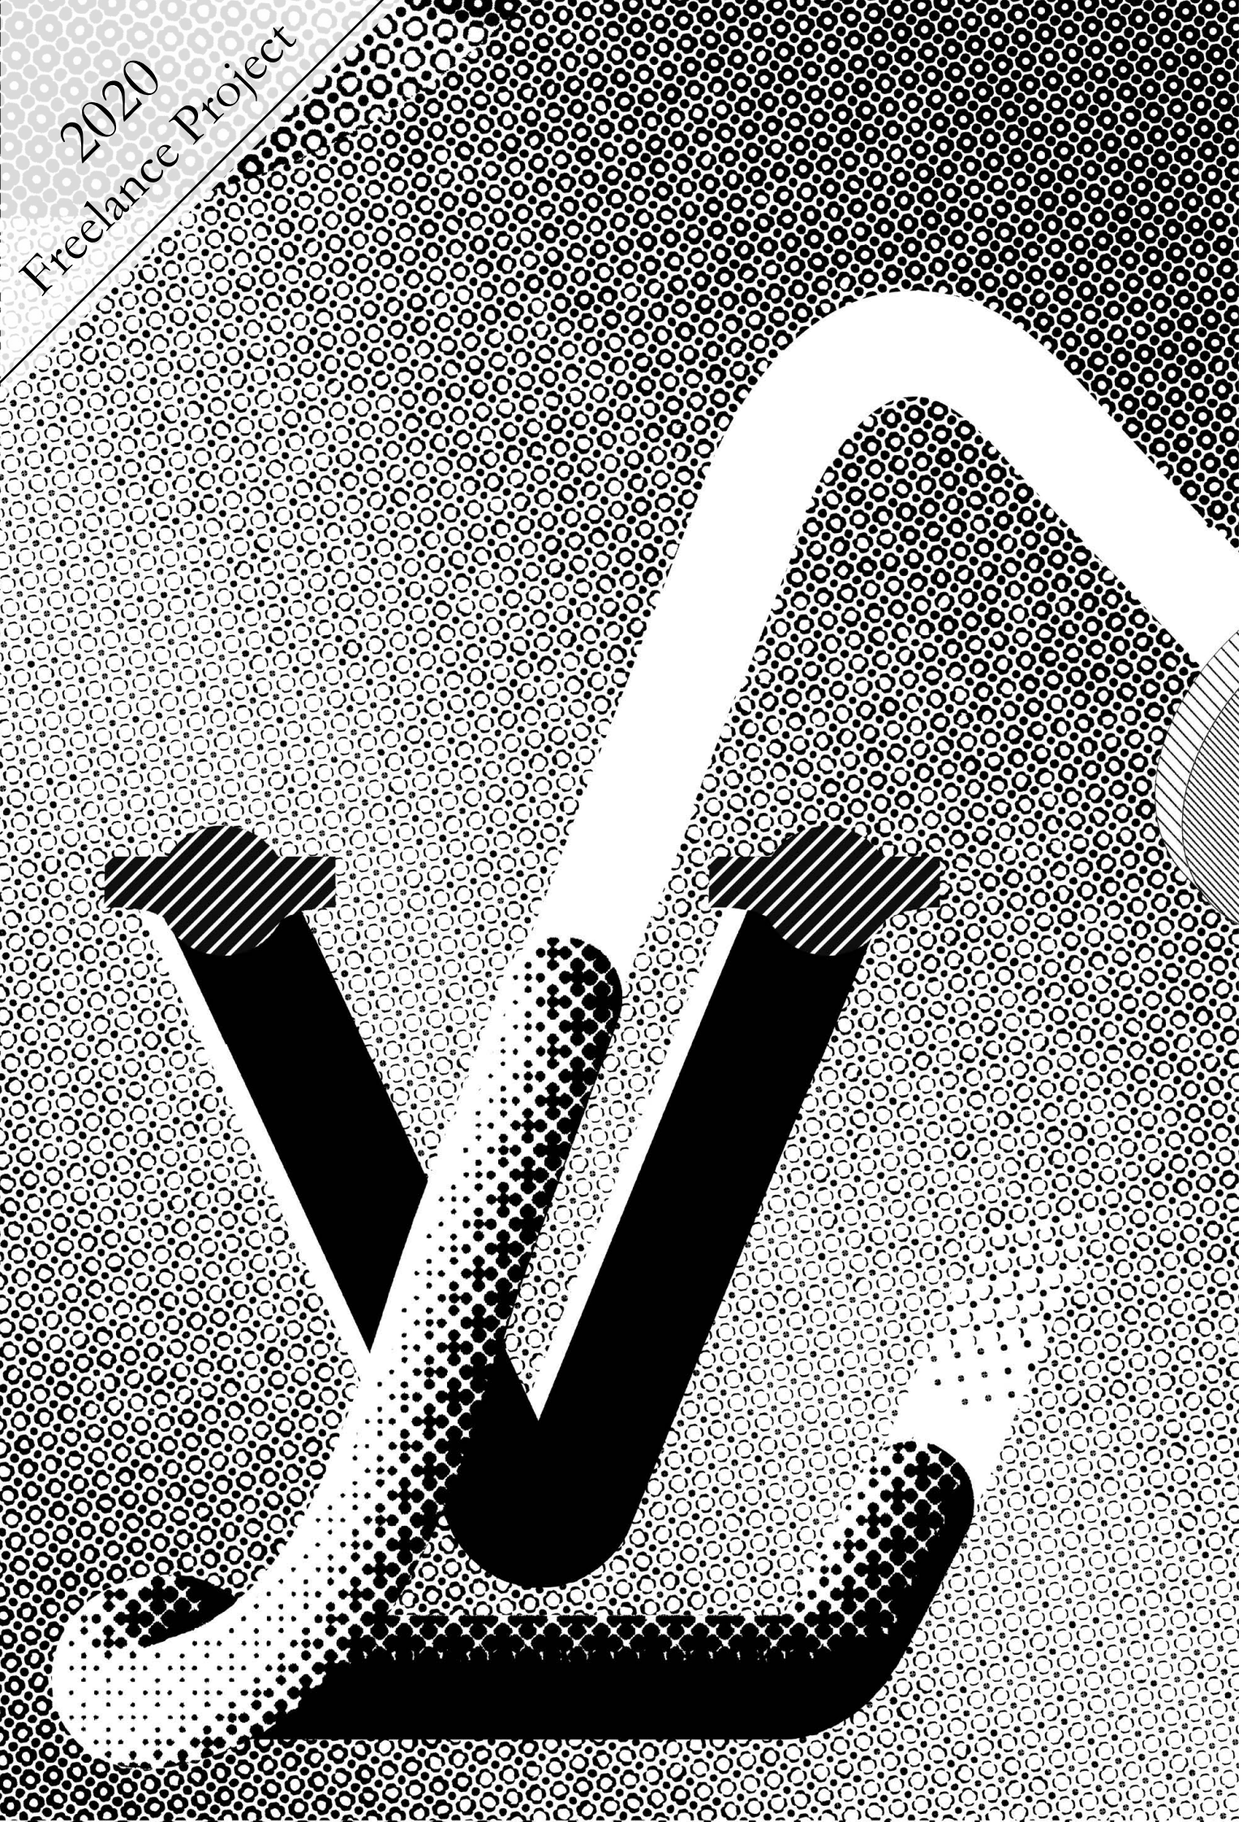
Graphic compositions made using Illustrator. This artwork was inspired by gameboards and casino tables. It was built into a shirt pattern and a square scarf.



GRAPHIC DETAILS DEVELOPMENT



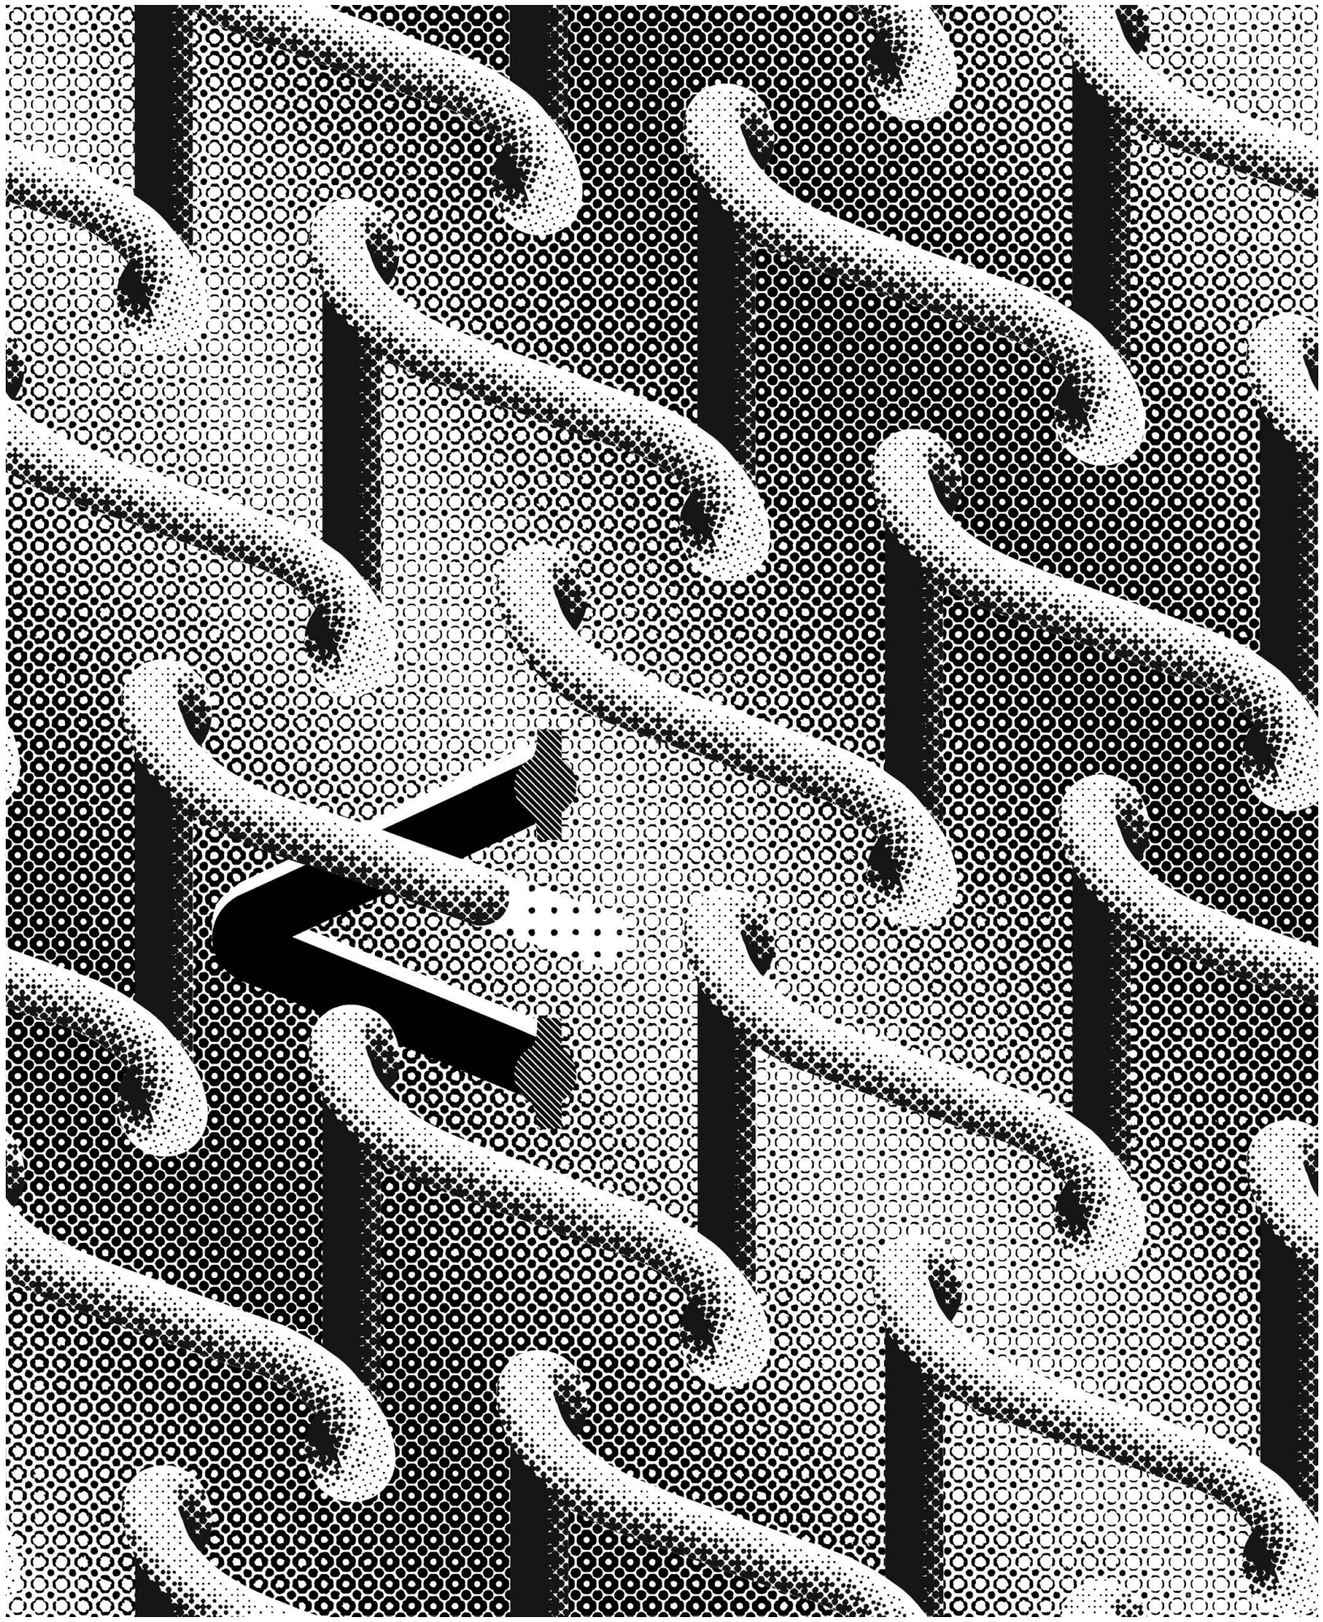


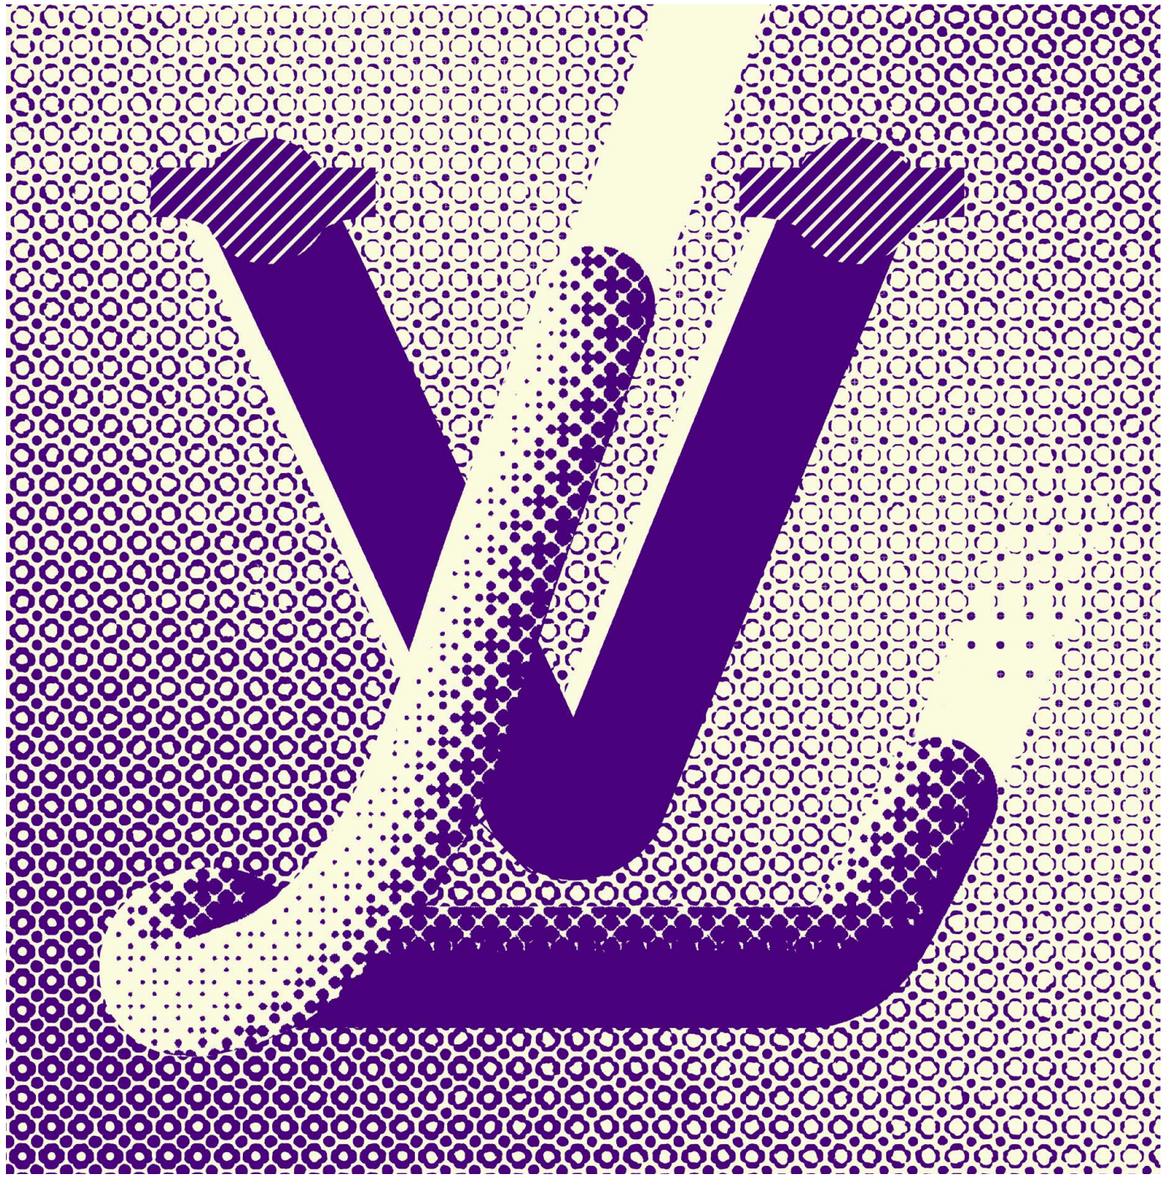


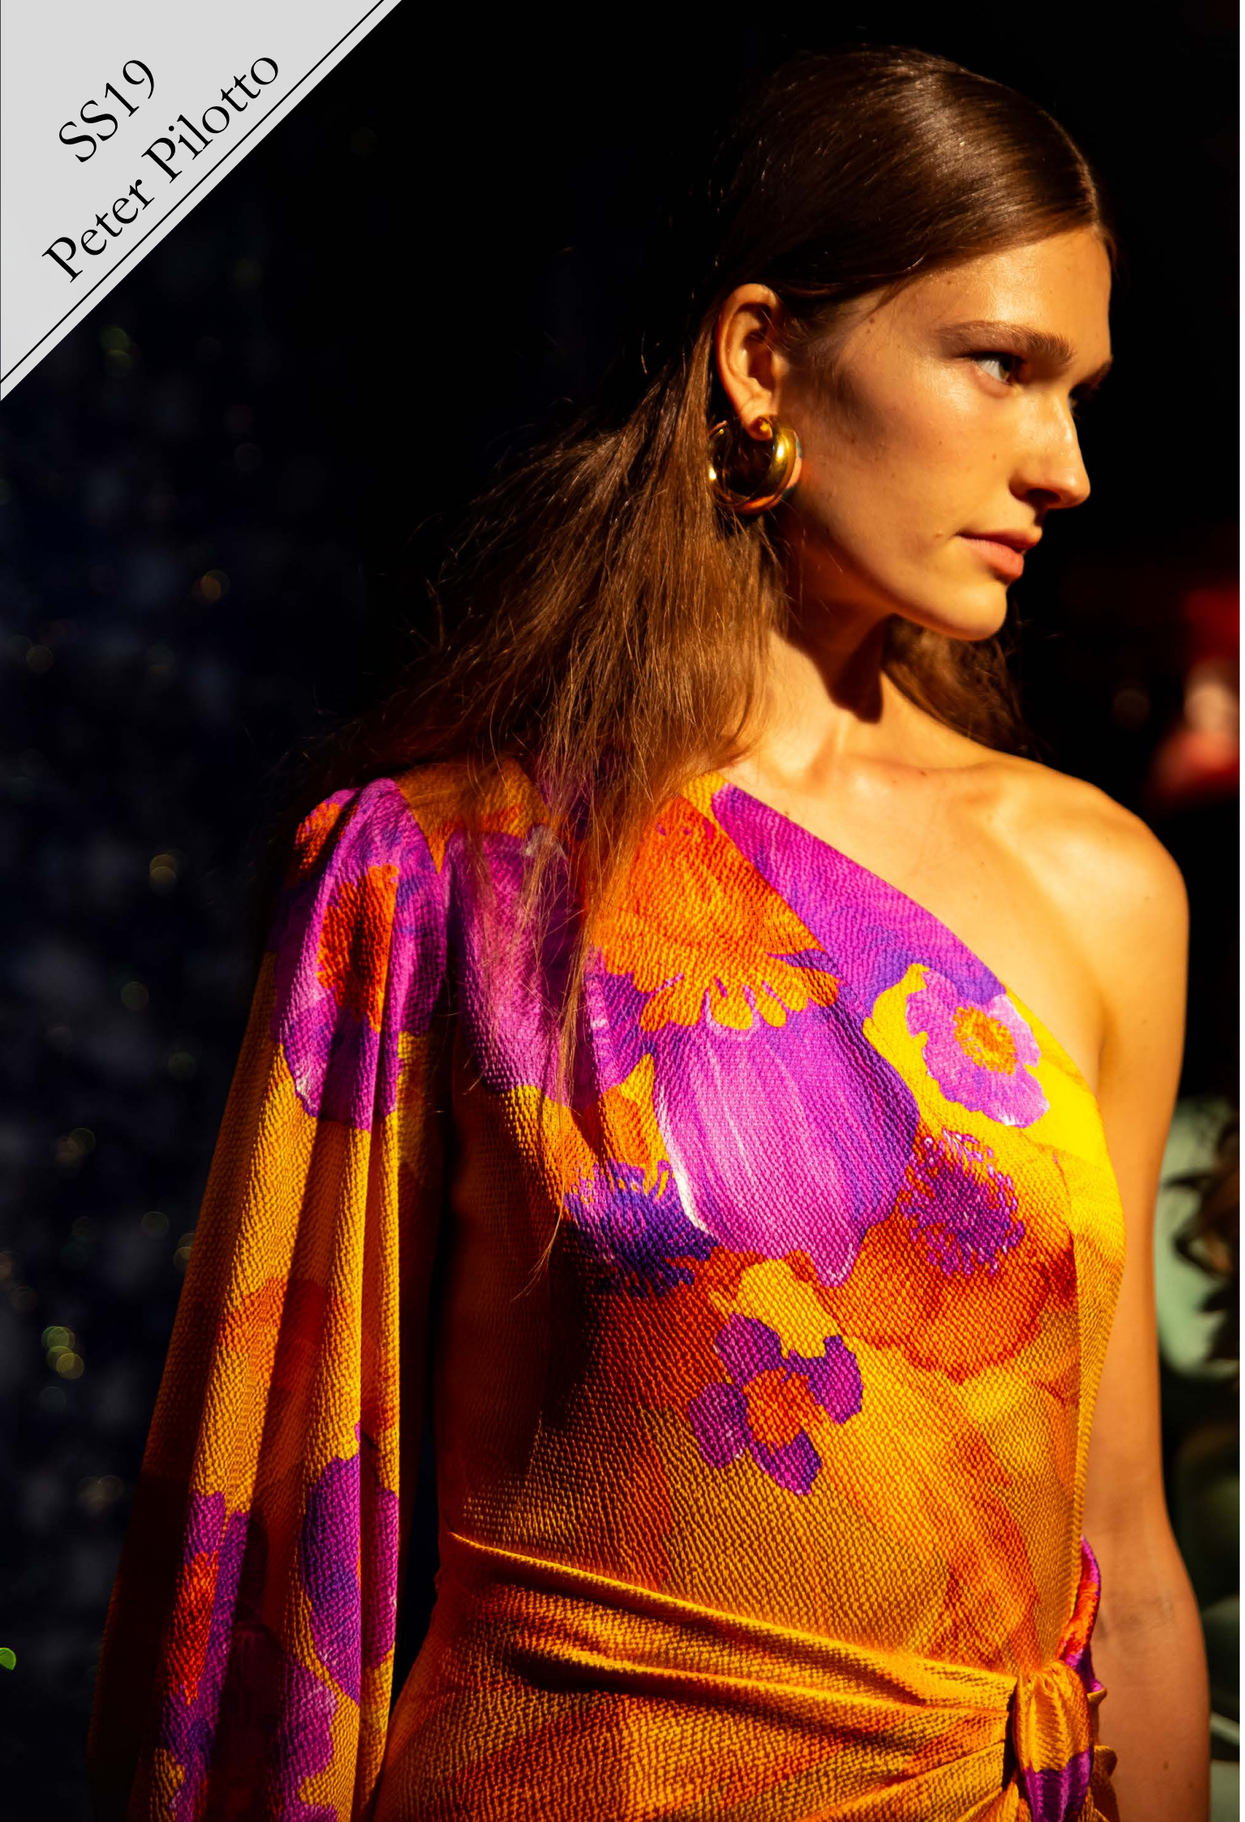
MEN'S ACCESSORIES

These artworks were made for Louis Vuitton as a single color screen-printing file, which can also be printed digitally.

As an inspiration for this print story I looked at the aesthetic and movement of heavy industry. I was drawn to the moving parts in manufacturing process and to the materials passing from one pipe to the other..







GLASS FLOWERS

Drawn in Photoshop. Inspired by Émile Gallé's glass vases. Photos of Gallé's artwork found in the Museum of Applied Arts (Budapest, Hungary) online archive.
